

DOWNSPOUT PLANTER CONSULTATION REPORT

CLIENT INFORMATION		
Participant Name:		
Street Address:		
CONTRACTOR INFORMATION		
Contractor Name		
Consultation Date/Time		
PARTICIPANT INTERVIEW	YES	NO
Does your basement get wet?		
Do you have a sump pump in the basement?		
Are there any problems with roof drainage/leakage?		
Are there any problems with gutters/downspouts/risers?		
Do you experience ponding or stagnant water in your yard?		
Do you have any other drainage issues?		
If the participant answered "yes" to any of the above, please provide detail below:		
<p>Ask participant for access to the basement. If access is denied, end consultation and fill out the Abbreviated Consultation form.</p> <p>Please look for any obvious signs of moisture, and take photos as necessary (minimum of 4). Submit these to RainCheck@pennhort.org along with this report.</p>		

All criteria must be met to install a downspout planter:

- There is adequate space for the planter
- The space does not encroach on a pedestrian path or walking zone
- The planter will be located on the ground (no roofs, decks or support structures)
- There is a safe place to direct the overflow
- There is a safe place to direct the underdrain
- The tool manages stormwater that would otherwise run into the sewer

DOWNSPOUT PLANTER CONSULTATION REPORT

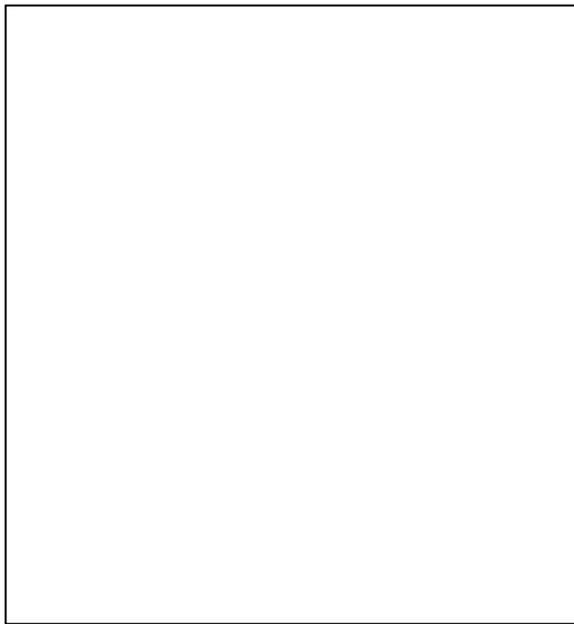

FEASIBILITY		YES	NO
Is the installation of a downspout planter feasible on the property?			
If not, please explain:			
If not, are any other Rain Check tools feasible on this property?
